Mobil Mobilgrease Lubricating Grease XHP 222

NLGI Grade – 2, Thickeners Type Li-Complex

Mobilgrease XHP 222 Grease is an extended service Lithium complex grease intended for a wide variety of applications and severe operating conditions.

Features:

- Superb resistance to water washout and spray-off
- Highly adhesive and cohesive structure
- Excellent rust and corrosion resistance
- Extended grease life and enhanced bearing protection in high temperature applications
- Very good anti-wear

Mobil Mobilmet 404 Non-Staining Cutting Oil

Mobilmet 404 oil is primarily a cutting oil with excellent machining capabilities, and may be used as a lubrication oil. It offers high lubricity and maximum cooling on hard, clean-cutting metals. This makes it especially suitable for high surface speed machining for severe cutting operations of difficult-to-machine ferrous and non-ferrous alloys.

LOCTITE Thread Treatment Sticks

Solid Performers With a Twist

248 Medium Strength & 268 High Strength Threadlocker Sticks

- Medium & high strength threadlocker eliminates loosening from vibration, shock and thermal expansion
- More reliable and cost effective than conventional mechanical fasteners
- Prevents rust & corrosion while sealing and protecting threads
- Equivalent formula to 242 and 262 liquid threadlockers

PST® 561 Thread Sealant Stick with Teflon®

- Immediate low pressure sealing to 100 psi
- Controlled lubricity prevents galling
- Protects threaded areas from rust and corrosion
- Provides exceptional fluid compatibility and chemical resistance
- Will not contaminate or clog lines

C5-A® Copper & Silver Grade Anti-Seize Sticks

- C5-A® protects metal parts in high heat environments up to 1800°F
- Silver Grade protects metal parts in high heat environments up to 1600°F
- Prevents rust, corrosion, seizing and eases disassembly
- Reduces friction and wear to critical parts
- Buttery texture ideal for both coarse and fine threads

KOOL MIST Formula 77 & 78

- Safe for your People
- Safe for your Materials
- Safe for the Environment
- Safe for your Machines

Formula 78: For light duty. Is a chemical base Mist Coolant that dissolves in water to a clear solution. Can be used on any metal or alloy.

Formula 77: For tougher service. Is highly recommended for Mist Cooling any metal or alloy where tougher machining condition requires greater lubricity.

Meets Requirements of:
OSHA • NASA • AEC • EPA

Adjustable Coolant Hose Kits

- LOC-LINE® will stay in position without any springback
- Since LOC-LINE® has a ball and socket design, bending doesn't decrease the inside diameter and won't kink like copper tubing. Also, there is no internal positioning rod that can break or restrict fluid flow.
